

A 15x15 grid-based maze. The grid is composed of white cells (paths) and black cells (walls). The maze is bounded by a thick black border. A green dot is located at the bottom-left corner (row 15, column 1), and a red dot is located at the top-right corner (row 1, column 15). The maze features a complex network of paths and dead ends, with a central area that is more open and less obstructed by walls.
